🇱🇰 Sri Lankan 🌐 Ishfaaq Ismath

PROFESSIONAL SUMMARY

A highly skilled Senior Software Engineer with 5+ years of experience in designing and developing innovative software solutions across multiple industries. Proficient in Java, Spring Boot, Microservices, Docker & Kubernetes, Angular, and AWS Cloud technologies, with expertise in backend and frontend development. Demonstrated success in leading full-stack application development, optimizing system performance, automating deployments, and enhancing operational efficiency. Strong problem-solving abilities, coupled with hands-on experience in RESTful API development, CI/CD pipelines, and cloud-based infrastructure, make a strong fit for roles involving manufacturing & logistic applications, financial data processing, and enterprise-grade solutions. Adept at collaborating with cross-functional teams, analyzing complex business requirements, and delivering scalable and high-performance software. Passionate about continuous learning, DevOps culture, and driving technical excellence in fast-paced environments.

SKILLS

Technical Skills

Java, PHP, C#, Node.js, Angular, React, Spring Boot, Hibernate, WordPress, CodeIgniter, Docker & Kubernetes, Micro Services Architecture, Web Sockets, Google Cloud platform, Oracle, Google Firebase, MySQL, MongoDB, Git, Jenkins, SonarQube, JIRA, Bugzilla, Scrum Methodologies, TestNG, Junit, AppDynamics, Splunk, Grafana

WORK EXPERIENCE

HCLTech

Nov 2021 – Present | Colombo, Sri Lanka

Senior Software Engineer 🔗

- Designed and implemented backend APIs to streamline shipment management workflows and enhance system capabilities.
- Improved front-end application reliability through targeted bug resolution and feature enhancements.
- Created intuitive dashboards and monitoring alerts to enable real-time system oversight and rapid issue detection, along with providing L3 support for troubleshooting and resolution.
- Optimized deployment processes through automation, ensuring seamless updates and improved operational efficiency by 40%.

Technologies: Java, Angular, Spring Boot, Hibernate, Docker & Kubernetes, Gitlab, Jenkins, SonarQube, TestNG, Junit, AppDynamics, Splunk, Grafana, Micro Services Architecture

Social 27

Nov 2021 – Aug 2022 | Remote, Sri Lanka

Senior Software Engineer (Frontend Developer – Part-time Contract) 🔗

- Implemented an intuitive interface to streamline event setup processes, ensuring a seamless and 100% user-friendly experience for event organizers across industries.
- Developed real-time chat capabilities using web sockets, enabling smooth attendee communication and fostering engagement during events.
- Integrated Google Firebase to optimize data storage and management, providing a secure and efficient solution for handling event-related information.
- Contributed to the creation of a scalable platform that modernizes event planning by addressing pre-event, coordination, and post-event challenges effectively.

Technologies: Java, Angular, Web Sockets, Spring Boot, Hibernate, Bitbucket, Firebase, MongoDB

IFS R&D International (PVT) Ltd

Jan 2020 – Nov 2021 | Colombo, Sri Lanka

Software Engineer 🔗

- Played a key role in enhancing the IFS ERP application in the manufacturing domain, by developing backend and frontend components tailored to user needs.
- Formulated one of the major manufacturing product suites CBS & ABP using the Planning and Scheduling Optimization (PSO) engine.
- Improved application performance by refining core functionalities, significantly reducing reported issues, and enhancing reliability.
- Delivered technical support to ensure seamless system operations and resolved complex challenges with efficiency.
- Streamlined operational workflows by identifying process gaps and implementing targeted improvements to bolster system usability by 70%.

Technologies: C#, Angular, Aurena Framework, PL/SQL, Bitbucket

Virtusa (PVT) Ltd
Associate Software Engineer 

Mar 2019 – Dec 2019 | Colombo, Sri Lanka

- Spearheaded the seamless migration of Finance and Procurement module data from Oracle EBS to Fusion ERP, ensuring a smooth transition with meticulous attention to 100% data integrity.
- Conducted in-depth analysis of legacy data to identify potential challenges, proactively addressing them to maintain optimum accuracy throughout the migration process.
- Engineered and deployed custom ETL tools to streamline data mapping and transformation, significantly improving the efficiency of the migration.
- Collaborated cross-functionally to ensure the Fusion ERP implementation met organizational goals, resulting in optimized workflows and enhanced system performance.

Technologies: Java, Spring Boot, PL/SQL, Oracle EBS, GitHub, Bugzilla

Auxenta (PVT) Ltd
Software Engineer – Intern 

Feb 2018 – Aug 2018 | Colombo, Sri Lanka

- Computed a Web Services Test Automation tool for REST and SOAP services, streamlining the testing process and improving developer efficiency by 50%.
- Authored comprehensive user stories that guided the development of both backend and frontend components, ensuring alignment with project objectives and end-user needs.
- Managed the creation of a Time Reservation System for salon management, enhancing scheduling efficiency and improving customer service delivery.
- Analyzed market trends and competitor tools to identify essential features, then developed tailored backend and frontend solutions to meet both business and user requirements.

Technologies: Java, Spring Boot, Node.js, Angular, React, Micro Services Architecture, TestNG, Junit, Google Cloud platform

EDUCATION

Bachelor of Information Technology
University of Colombo School of Computing 
Graduated with a CGPA of 3.34.

Feb 2016 – Aug 2019 | Colombo, Sri Lanka

BSc (Special) in Business Management
Wayamba University of Sri Lanka 
Graduated with a CGPA of 3.39.

Jan 2015 – Jul 2019 | Kuliyaipitiya, Sri Lanka

School
Zahira College

Jan 2000 – Aug 2013 | Colombo, Sri Lanka

CERTIFICATIONS

AWS Certified Cloud Developer — Awarded by Microsoft - Currently Reading

AWS Certified Cloud Practitioner  — Awarded by Amazon Web Services

AWARDS & HONORS

Silver Award
Awarded by Matrix Institute of Information Technology
Achieved “Silver Award” for the Blood Request System using PHP & CodeIgniter framework which designed for the Blood Bank

Colombo, Sri Lanka

Best Upcoming Employee | Top Performer
Awarded by Innodata Isogen Lanka (Pvt) Ltd
Rewarded as “Best Upcoming Employee” of 1st quarter in 2014 & “Top Performer” 1st place of 2nd quarter in 2014.
