

NETHMI WEEDAGAMA

SOFTWARE ENGINEER

No 26 Araliya Place, Dehiwala-Mount Lavinia, Colombo, Sri Lanka
+94719219659 | nethmiweedagama@gmail.com
LinkedIn | GitHub

SUMMARY

Passionate Software Engineer proficient in Java, Python, and JavaScript, with expertise in Spring Boot, ReactJS, and FLASK for building scalable web applications and microservices. Experienced in designing and developing RESTful APIs and working with Docker, Kubernetes, and WSO2 technologies. Skilled in database management with PostgreSQL and MySQL, with a strong ability to troubleshoot, optimize performance, and deliver efficient, scalable solutions while staying updated with emerging technologies.

WORK EXPERIENCE

Software Engineer | Mitra AI

OCT 2023 - Present

- Engaged in feedback-driven development, ensuring solutions aligned with client requirements and industry standards.
- Contributed to the development of Open Banking solutions for Prasac Bank Cambodia using Java Spring Boot and WSO2 Technologies.
- Integrated WSO2 API Manager with Datadog to monitor API traffic, improve performance analytics, and detect potential issues.
- Diagnosed and resolved critical API failures at Wing Bank Cambodia, identifying misconfigurations and outdated WSO2 APIM versions, which were fixed by upgrading the platform and applying necessary configurations.
- **Tech Stack: WSO2 API Manager, WSO2 Identity Server, Java Spring Boot, Kubernetes, PostgreSQL, MySQL, Datadog.**

Software Engineer Internship | Embla Software Innovation

JUL 2021 - JUL 2022

- Participated in the full software development lifecycle, from gathering requirements to design, coding, and testing, ensuring high-quality deliverables.
- Designed and implemented an OpenCV-based image comparison application, improving accuracy and streamlining the image comparison process.
- Optimized TensorFlow Lite models for real-time object detection, reducing inference time and enhancing application performance.
- Collaborated in an Agile environment, actively participating in daily stand-ups, sprint planning, and retrospectives, contributing to a highly efficient development process.
- Developed clean, efficient, and maintainable code for web applications using Angular JS, adhering to industry coding standards and best practices.
- **Tech Stack : Angular, Python, Machine learning, Image processing, JIRA**

EDUCATION

BEng(Hons) in Software Engineering

2019 - 2023

Informatics Institute of Technology (IIT)- UNIVERSITY OF WESTMINSTER
Upper Second Class Honours

PROJECTS

- Premier League System(2020) is a web application that was created using Angular and Play Framework to manage statistics in a football league
- VIUWER (Software Development Group Project) (2020-2021)-A web application that gives the social impact of a YouTube video. React JS and Flask were used for frontend and backend components
- A Python program that gives the Progression outcome of a University Student(2019)
- Website About Cinematography. HTML, CSS Javascript were used to create the website.
- Train Seat Booking System(2020) – Java and JavaFX were used to create the application.
- A Social media application(2023)-PHP, HTML, CSS, BackboneJS
- A concurrent Shared Printing System (2023)-Implementation of a concurrent printing system using Java and FSP, has several students that share a printer to print documents and two technicians that refill it with paper and toner cartridges.
- BUGCLASSIFIER(2023)- A web application that is a prediction system that automatically predicts the severity and priority of a software bug report using machine learning technologies, frontend using React JS and serverside using FLASK

SKILLS

- **Programming Languages:** Java, Python, SQL, JavaScript, TypeScript, HTML, CSS
- **Frameworks & Libraries:** Spring Boot, Hibernate, ReactJS
- **Databases:** MySQL, MongoDB, PostgreSQL, SQL Server
- **Tools & Platforms:** Git, Bitbucket, Azure DevOps, JIRA, Postman, Docker, Kubernetes
- **Technologies:** Microservices, RESTful APIs, Agile Methodology, ELK Stack, Datadog, WSO2 API Manager, WSO2 Identity Server, WSO2 Micro Integrator, Machine Learning

ACHIEVEMENTS/CERTIFICATIONS

- Google Hash code 2021 - Certificate of participation
- Learning React.js -LinkedIn learning
- Advanced Java Programming - LinkedIn Learning
- Cutting Edge 2021 –Certificate of Participation for SDGP Project
- WSO2 Certified API Manager Developer - V4 API Management Profile

EXTRA-CURRICULAR ACTIVITIES

- Member of Mozilla club - IIT
- Member of FOSS Community - IIT
- Member of IEEE Student Branch - IIT
- Member of WIE affinity group of IEEE Student Branch - IIT
- Member of the western band - Sanghamitta Balika Vidyalaya

LANGUAGES

- English (Professional)
- Sinhala (Native)
